## G SPOT 2012 WHITE WINE FIELD BLEND

**98% Old Vine Vermentino and 2% Roussanne** from Mokelumne Rim and Schatz Family Vineyards in Lodi comprise our 2012 edition.

While the Lodi appellation is most often associated with Zinfandel and other red grape varieties, a few early pioneers successfully experimented with white grape varieties which continue to produce excellent fruit. Lodi is a diverse wine region formed thousands of years ago through geological events and alluvial waters. Two major rivers originating in the Sierra Nevada mountain range feed the Lodi appellation; the Mokelumne and Cosumnes. These rivers have brought soils rich in **granitic-based minerals that lend complex flavors to the wines.**

Historically Lodi vineyards were developed in the fine sandy loam soils surrounding the community. It's here along the banks of the Mokelumne River. This area is noted for producing uniform and balanced vineyards that deliver **intense fruit-driven wines** with a rich silky texture.

Our 2012 G Spot features spicy, mineral scented aromas of orange blossom, jasmine and pear followed by layers of mouth filling grapefruit, lime and honeydew melon flavors. Juicy acidity provides a perfect balance with a clean, satisfying finish.

A total of only 1,800 cases was produced of this Small Batch Series – Volume 1 by **winemaker Charles Hendricks.**

Wine buyers will immediately notice that, unlike other wine bottles, **Dirty Pure bottles do not have capsules.** Capsules only serve a decorative purpose and, on occasion, can lead to mold forming on the cork if the wine is stored improperly (e.g. 99% of the time). Additionally, the production of metal and plastic capsules is a messy and environmentally unfriendly business. Foregoing capsules is just one of our efforts toward **sustainability best-practices.**
